The specifications of the wool and needle sizes are only examples/references. If You use other wool than specified, the figure will become taller or smaller. It's Your choice which wool you use. The needle size must be chosen to match the wool used. When crocheting Amigurumis You should use a much smaller needle size than indicated on the banderole or You would use it for other crochet projects so that no holes are made when the piece is stuffed. With a needle size of 2 mm, my gauge sample results in a diameter of 4.5 cm for six crocheted rounds.

You are working in continuous rounds, unless otherwise specified in the pattern.

When crocheting clothes, always try them on the doll, because different yarn, hook size and tension may alter the final product. Adjust if necessary.

The basic pattern for Lilly is here: <https://www.zhaya.de/index.php/other-languages/pattern-english>.

Collar and leash:

For the leash just make a chain in the desired length and go back along the chain with single crochets or sltp stitches. I've left a loop to booth ends, one to hold the leash and one to attach it to the collar. Skip some stitches at the ends to do that.

Another good way to make a leash is to make an icord. (e. g. shown here (just click the link): <http://www.planetjune.com/blog/how-to-crochet-an-i-cord/>).

For the collar make another chain in the required length and attach a button, buckle or similar or just sew it together.
